

*Sun Produce Cooperative (SPC) is a multi-stakeholder agricultural and marketing organization that includes agricultural producers, distributors, buyers and market specialists.*

*Its mission is to create viable alternative distribution streams for Arizona's smaller-scale producers, reduce barriers to market entry, gain economies of scale through its aggregate size, and leverage cooperative branding and marketing and supply purchasing efforts. The co-op model supports its members to combine product volume and variety as well as resources and expertise in order to expand reach into new markets. **SPC connects increased consumption of local food for better over-all individual and community health to farm viability and economic development.***

*Offering more than 200 locally produced and value-added food items, the Co-op solicits orders weekly for products from more than 50 customers in 7 of the state's 15 counties. Customers include wholesale and retail outlets, schools and hospitals, farmers markets, restaurants, farm bag / CSA programs, food banks and community-based non-profits. The Co-op, then picks up the produce and other value-added products that have been ordered, such as honey, frozen processed poultry, cheese, bread and pastries, dried herbs and spices and eggs, sorts them into orders and then distributes the orders.*

*For more information on participating in the co-op, contact [sunproducecoop@gmail.com](mailto:sunproducecoop@gmail.com)*
